

MINI MAKERS

BINARY CODE KEYCHAINS

Fun Fact

Computers use **binary code** (0s and 1s) to store and send information!

Materials

- 15 Inch String
- Black Beads
- White Beads
- Keychain Ring

Instructions

- Tie the string to your keychain so two loose ends hang down
- Use the binary code chart to figure out what beads you need to create your 2 initials for your keyring
- Line up your beads to match the pattern of the numbers in the chart
 - You can make white beads = 0 and black beads = 1.
- String the beads in order, 1 initial per strand of cord.
- Tie a knot at each end of the string to hold the beads in place
- Now you have a secret code keychain with your initials!

Binary Code Key

0 =  1 = 

A	01000001	N	01001110
B	01000010	O	01001111
C	01000011	P	01010000
D	01000100	Q	01010001
E	01000101	R	01010010
F	01000110	S	01010011
G	01000111	T	01010100
H	01001000	U	01010101
I	01001001	V	01010110
J	01001010	W	01010111
K	01001011	X	01011000
L	01001100	Y	01011001
M	01001101	Z	01011010
